

DETERMINING YOUR RING SIZE

CONFIRM YOUR PAPER PRINT SIZE

Carefully follow these instructions to obtain an accurate measurement.

Before you measure your ring size, we must confirm your printer settings are correct. Your Page Scaling needs to be set to "None" within your print dialogue box. Then use the either test to ensure proper accuracy.

1" 

OPTION 1: PAPER RING SIZER

For best accuracy, have someone help you measure.

Step 1

Cut-out the ring size ruler

Step 2

Create a slit by making a small cut on the line labeled "A".

Step 3

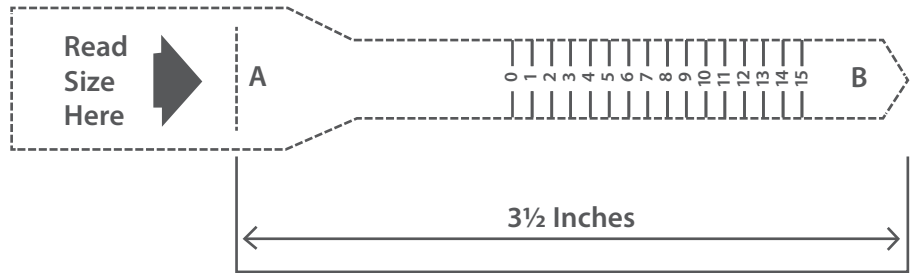

Slip the pointed end through the slit creating a circle.

Step 4

Place the ring size ruler around your finger pulling the pointed end for a snug fit.

Step 5

The number line located at "A", is the proper ring size.

Do not wrap the paper too tight, and aim for a comfortable, snug fit.

OPTION 2: MEASURING A RING THAT ALREADY FITS

Step 1

Select a ring that properly fits the intended finger.

Step 2

Place the ring on top of the circle until the inside edge of the ring matches the outside of the circle.

If the ring is a comfort fit design, match circles to the contoured edge of the inner surface of the ring.
